The owners of Westminster Business Park would like to express our strong interest in working with the MART by providing a site for your Layover Facility.

It seemed mutually agreeable that Lot I-8, which is approximately 44.5 acres and parallels the present rail line would be the easiest and most economical portion of land to develop for your facilities.

We look forward to working with your engineers and planners to make this a reality.

We congratulate the MART on this forward thinking project and wish you the very best success. This will be a great asset to our Industrial Park and a great asset to the growth of our community.

Sincerely,
